

Industrial Hygienist Sr FD77

Industrial Hygienist Sr

Updated 6/29/22

Sentry's dedication to customer service is embodied by our best employees. At Sentry, our associates take care of our customers with a passion for service and delivering business results. We are seeking an experienced, self-motivated, technical and results driven individual to fill a highly skilled position in our National Accounts - IH Services Division. As an Industrial Hygiene Consultant Sr. you will work with Corporate Risk Management, Safety Management, and Plant/Facility Management contacts as well as brokerage firms to complete Industrial Hygiene Services for our casualty line of business primarily for our National Account customers with premium in excess of \$500,000.

What You'll Do

The following are some of the responsibilities of the National Account IH Services Consultant that would be located preferably in Atlanta, GA; secondary location includes Greensboro. Travel responsibilities would include the eastern seaboard and gulf coast.

- Act as a Team Leader and conduct industrial hygiene field consultation service (noise, air quality, IAQ, etc.) for National Accounts customers. Provide industrial hygiene services for commercial lines customers, underwriting, and fee service customers at the request of IH or Safety Services management.
- Anticipate, recognize, evaluate potential health hazards, and assist customers by recommending proper controls according to ACGIH and OSHA guidelines.
- Review, assist with development and/or coordinate specific risk improvement or regulatory mandated programs. Coordinate the implementation of these programs with the customer and the safety services consultant.
- Provide technical expertise for the development of industrial hygiene-related technical bulletins or information sheets.
- Provide training for customers, safety services consultants, or Sentry Insurance employees in industrial hygiene-related areas.
- Assist sales and underwriting by providing information about prospective customer's processes and potential exposures on conditions that may lead to occupational disease as directed by Industrial Hygiene Management.
- Assist Sentry Insurance claims department with review or evaluation of occupational disease claims that may have arisen from specific process or workplace exposures.
- Maintain and calibrate field equipment on a scheduled basis. Ensure that field work is done in a timely and professional manner.

What it Takes

- Bachelor's degree or equivalent within the Safety Sciences area is required (i.e., Industrial Hygiene, Degree in Chemistry, or a related science and/or engineering field).
- 3+ years of related work experience.
- M.S. Degree in industrial hygiene, or occupational and environmental health preferred.
- Certification by the American Board of Industrial Hygiene in the comprehensive practice or other specialty aspect of industrial hygiene is preferred. or a willingness to achieve the CIH Designation in 3 – 5 years.
- Demonstrated competency in field consultation and familiarity with current industrial hygiene technology.
- Leadership skills, proactive attitude, proficient technical writing and communication skills.
- An acceptable motor vehicle record and ability to perform extensive travel is required (50% - 75% travel).

What You'll Receive

We take great pride in making Forbes' list of America's Best Midsize Employers since 2017. A lot of different factors go into that honor, many of which contribute to your job satisfaction. At Sentry, your total rewards go beyond competitive compensation. Below are some benefits and perks that you'll receive.
